Gentlemen:

Re: Notice of Intention to Commence Small Mining Operations, Trail Canyon Project, S/025/006. Kane County, Utah

Thank you for your Notice of Intention to Commence Small Mining Operations received by the Division on June 20, 1988. The application is complete and no additional information is required at this time.

Please pay special consideration to item #10 of the NOI, the stockpiling of topsoil material prior to mining activity. If the area being mined is rocky, this, of course, is impossible. However, even the first few inches of undeveloped material is worth saving to aid in later revegetation efforts and future regulatory release from reclamation requirements.

Should you wish to expand your operations beyond the 5 acre limitation, please notify this office as soon as possible to avoid any unnecessary delays.

Thank you for your cooperation. When in the area a member of the Division staff will examine the site. Best wishes with your mining operation.

Sincerely,

Holland Shepherd  
Reclamation Soils Specialist
